

Product Specification Sheet

Food Service Range

F6

PRODUCT NAME: F6 Sanitiser Food Grade

PRODUCT INFORMATION:

F6 Sanitiser is a Quat based food grade sanitiser that kills bacteria from hard surfaces.

DIRECTIONS FOR USE:

In order to Sanitise a surface effectively the two step process must be adhered to.

Clean the surface by removing all food particles, soil and contaminants. Once this is completed and only then can the surface be sanitised effectively

Prepare a solution of 10:1 (100ml per Lt) into a trigger bottle, Spray onto the surface and allow dwell time then wipe with a clean cloth or paper towel. No rinsing is required required.

Suitable for food processing equipment, food preparation benches and counters, food slicers.

NEED TO CHECK FOR RESIDUAL SANITISER DILUTION

TECHNICAL DATA:

Active Ingredient: Quatramine 2.75%
Alkylbenzyl dimethyl ammonium chloride

Issue date: February 2024

KIS CODE:
KIS-F6

Features:

- * Australian Made
- * Quaternary Ammonium Compound
- * Food Grade Sanitiser
- * Suitable for food preparation establishments
- * HACCP Approved
- * AQIS Approval IOA No.10319
- * pH7

PACK SIZE:

5 Litre
15 Litre
